Microsoft Integration Runtime Configuration Manager
Register Integration Runtime (Self-hosted)
Welcome to Microsoft Integration Runtime Configuration Manager. Before you start, register your Integration Runtime (Self-hosted) node using a valid Authentication Key.
Warning
The current version (5.68.9705.1) seems to be newer than the version running on other nodes (5.66.9620.1) under the same self-hosted Integration Runtime. We recommend using the same version of Integration Runtime node across all nodes to prevent any issues.
The latest version of self-host Integration Runtime installer can be found here.
Do you still want to register this node (and update other nodes later)?
